

Northeastern University

College of Engineering

Department of Bioengineering Fall 2022 Seminar Schedule

September 7 Institution:	Assistant Professor Jessica Oakes Northeastern University
September 9 Institution:	Associate Professor Guohao Dai Northeastern University
September 14 Institution: Research Focus:	Associate Professor Anna Devor Boston University NeuroImaging (Microscopy & MRI)
September 21 Institution:	Assistant Professor Hari Parameswaran Northeastern University
September 28 Institution: Research Focus:	Eduardo D. Glandt President's Distinguished Professor Vivek Shenoy University of Pennsylvania Mechanobiology
October 5 Institution: Research Focus:	Assistant Professor Catherine Fromen University of Delaware Biomechanics, transport, respiratory pathologies
October 19 Institution: Research Focus:	Dr. John Kasianowicz The National Institution of Standards and Technology Microsystems and Nanotechnology Division of the Physical Measurement Laboratory
October 26 Institution: Research Focus:	Assistant Professor Erica Pratt Boston University Engineering-focused cancer research
November 2 Institution: Research Focus:	Associate Professor Ian Sigal University of Pittsburgh Mechanobiology
November 9 Institution: Research Focus:	Associate Professor Ming Guo Massachusetts Institute of Technology Mechanobiology
November 16 Institution: Research Focus:	Assistant Professor Ryan Flynn Boston Children's Hospital, Harvard Department of Stem Cell and Regenerative Biology Cell and Tissue Engineering
